

End-User License Agreement

Thank you for choosing our Software. We hope that it meets your requirements.

Please read the following terms carefully before installing, copying and/or otherwise using the software suite of applications - WEBCON Business Process Suite (hereinafter referred to as "the Software"). **All the terms and conditions are important and together create the End-User License Agreement (the "EULA") that applies to you. Once you install, copy or otherwise use the Software, you accept the terms and conditions entirely.**

The End-User License Agreement is a legal agreement between you, the end user, and WEBCON. The terms apply to the Software, the Documentation, and the media on which you received it, if any. The terms apply equally to any WEBCON updates, supplements, components, and Internet-based services, for the Software, unless other terms accompany those items (such as rules specified in the Software Assurance License, the "SAL") provide otherwise.

If you do not accept the terms of the EULA do not install, copy or use the Software in any manner at all. Instead, you should return the Software to the retailer or other supplier you obtained the License from, for a refund or credit, and remove the Software from your device notifying us within 5 calendar days of the removal.

For your convenience, we have organized the agreement into two parts. The first includes introductory and generally terms, second part comprises the Terms of Use ("TU") which contain more detailed provisions, both parts forming the terms of the legal agreement between you and WEBCON.

The License Agreement can be entered into by you and WEBCON through a Partner. The License entered into through the Partner is an agreement for the provision of services (granting a license) by a third party.
